

On-site support services

for English speaking nationals and immigrants

Are you facing difficulties communicating in Japanese at government agencies?

As part of our free daily life consultation services, Legato Ota Inc. also provides on-site assistance based on your needs and our availability. After a consultation session with us, our English-speaking and Chinese-speaking consultant can accompany you to government offices/agencies or specialized institutions to provide on-site support in administrative procedures such as filing paperwork.

Please note that this is part of our consultation services. It is also possible for an interpreter in a language other than Chinese or English to accompany the consultant, but it is not possible to request interpretation only services.
